New Plymouth Sportfishing & Underwater Club Bluewater (NPSUC) Spearfishing Competition 2025

Further Information, rules, fish list, scoring and entry form below.

The NPSUC Bluewater spearfishing competition is to be run over the week of 15th to 22nd February. It is proposed to make this an annual event, however this may depend on the support we get for this 1st competition. This is the same week of the NZSFC Nationals, and as a club we will the two competitions in parallel. Divers will inherently be tested on their patience, preservation and fortitude when out in the deep blue. We intend for the format of the competition to keep things interesting and fun for everyone, with some awesome prizes at the end to top it off.

The last day of the competition is the Saturday 22nd February, with prize giving to held that night. You can dive as many days over the week as you like and do not have to be at prizegiving to receive your prize.

Rules

- A team of up to 4 divers may be entered. There is a minimum amount of two divers required to go out on a day.
- The competition will be fished out of Port Taranaki and will cover an area from Cape Egmont to Albatross Point and 100 nautical miles out to sea.
- The entry fee is \$80 per team. Although the competition officially starts on the 15th February we will allow late entries per the discretion of the organisers.
- Teams get to choose any or all of the 8 days across the duration of the competition.
- Where possible we strongly encourage people to attend the prizegiving to help make the competition bigger and better each year. Spot prizes will only be given out to people present at prizegiving.
- There will be a safety briefing on Friday night 14th February 7.30pm at the club. Please contact David Gibson on 0274712012 to organise an alternate briefing if you won't be able to attend on the 14th. Attending a safety briefing is compulsory.
- Multiple boats from the same team can go out on the same day. However, each boat counts as 1 day. For example, if a team of 4 divers took 2 separate boats out, that would count as 2 of the team's 8 days.
- Fish can only be weighed at the NPSUC, with the weigh station open from 4 to 5.30pm each day. Once fish has been weighed in it cannot be upsized. Please note we may use photos to help promote the progress of the competition. **Fish do not need to be gutted and gilled for this competition.**
- It is the responsibility of the team to get their fish weighed. Teams can choose to do multiple days in a row if staying out of reception, however all days to be used must be notified in advance, on the first day. Once notified, you cannot undo the number of days originally posted- but all fish can be weighed in on the final day once back on land.
- All fish must be speared in the competition area.
